# WELCOME

## WE'RE EXCITED TO HOST YOU IN CLOUD CITY!

We recognize crews as a critical component to all of our events. Our courses cover open roads and trails and careful consideration must go into how and where crews and spectators can access their athletes. A conscious plan around this is a foundation of our partnership with the community, USFS, BLM, City of Leadville and Lake County officials to ensure we are providing a safe event experience to everyone involved.

Thank you for joining us in making this a safe, successful experience for everyone involved! We appreciate your teamwork and willingness to support our communities.
